

NE Mushrooms, for Beginners -- selected by Gary H. Lincoff

The Text page and Image # correspond to those in *The Audubon Guide to North American Mushrooms*.

Group Mushroom	Text p.	Image #	Group Mushroom	Text p.	Image #
GILLED MUSHROOMS			Collybia tuberosa	757	11
WHITE SPORED GILLED MUSHROOMS			Oudemansiella radicata (= Collybia rad., Xerula furfuracea)	788	268
AMANITA			Tricholomopsis platyphylla (= Collybia platyphylla)	807	265
Sect. A (Vaginatae)			LEPIOTA and its segregates		
Amanita vaginata complex	549	112	Sect. A [Leucocoprinus]		
Amanita caesarea	528	142,681	Lepiota americana	513	173,174
Sect. B (Amanita)			Lepiota cepaestipes	515	179
Amanita gemmata	537	128,129	Sect. B [Lepiota]		
Amanita muscaria	538	137,143,680	Lepiota cristata	517	177
Sect. C (Amidellae)			Sect. C [Leucoagaricus]		
Amanita volvata complex	552	116	Lepiota naucina	519	121
Sect. D (Phalloideae)			Sect. D [Macrolepiota]		
Amanita phalloides	543	113,673	Lepiota procera	520	172
Amanita virosa	551	123,124,672	Sect. E (Green-spored)		
Sect. E (Validae)			Chlorophyllum molybdites	509	169,170
Amanita brunnescens	527	126,134,147	MARASMIUS and its allies		
Amanita citrina	531	125	Marasmius oreades	772	17,18
Amanita flavoconia	534	136,139	Marasmius plicatulus	773	40
Amanita rubescens	545	132	MYCENA and its allies		
Sect. F (Lepidella)			Mycena galericulata	780	6
Amanita cokeri	531	166	Mycena pura	784	104
ARMILLARIA			PLEUROTUS and its allies		
Armillaria mellea complex	736	182,206	Pleurotus ostreatus	793	484,497
Armillaria tabescens	737	272,313	Hypsizygus tessulatus	761	492
CLITOCYBE and its allies			Lentinellus ursinus	765	502
Clitocybe clavipes	745	320	Panellus serotinus	789	498
Clitocybe dealbata	745	241,245	Panus rudis	791	505
Clitocybe nuda (= Lepista nuda, Tricholoma nudum)	749	346	Phyllotopsis nidulans	791	500
Clitocybe odora	750	350	Panellus stipticus	790	501
Omphalotus olearius (= Clitocybe illudens)	787	310,426,483	XEROMPHALINA		
Armillaria tabescens (see under Armillaria above)			Xeromphalina campanella	809	58
Laccaria laccata	762	335	TRICHOLOMA and its allies		
Laccaria ochropurpurea	762	254,336	Tricholoma flavovirens	800	323
Cantharellula umbonata (see under Chanterelles below)			LACTARIUS		
Hygrophoropsis aurantiaca (see under Chanterelles below)			Sect. A (Dulces)		
COLLYBIA and its allies			Lactarius hygrophoroides	685	290
Collybia dryophila (= Gymnopus dryophilus)	755	80	Lactarius volemus	696	291
			Sect. B (Dapetes)		
			Lactarius deliciosus	683	312
			Lactarius indigo	686	337

Group Mushroom	Text p.	Image #	Group Mushroom	Text p.	Image #
Sect. C (Albati)			Agaricus abruptibulbus	500	122
Lactarius deceptivus	683	248	Agaricus arvensis	501	156
Sect. D (Pliinthogali)			Sect. C (Xanthodermei)		
Lactarius gerardii	684	362	Agaricus meleagris	507	152
Sect. E (Russulares)			Sect. D (Sanguinolenti)		
Lactarius camphoratus	681	295	Agaricus haemorrhoidarius	505	160
Sect. F (Lactarius)			AGROCYBE		
Lactarius vinaceorufescens	695	288	Agrocybe pediades	557	47
RUSSULA			Agrocybe praecox	558	225
Sect. A (Compactae)			CONOCYBE		
Russula brevipes	698	252	Conocybe lactea	560	5
Russula dissimulans	701	249	CORTINARIUS		
Sect. B (Ingratae)			Sect. A [Cortinarius]		
Russula laurocerasi	704	306	Cortinarius violaceus	620	340
Sect. C (Rigidae)			Sect. B [Dermocybe]		
Russula mariae	705	339	Cortinarius semisanguineus	618	300
Russula crustosa	700	356	Sect. C [Myxacium]		
Sect. D (Russula)			Cortinarius iodes	617	344
Russula emetica complex	701	328	Sect. D [Phlegmacium]		
HYGROPHORUS and its segregates			Cortinarius multiformis	617	305
Hygrophorus miniatus	663	69	Sect. E [Sericeocybe]		
Hygrophorus eburneus	659	236	Cortinarius alboviolaceus	611	342
-----			Sect. F [Telamonia]		
NON-WHITE SPORED GILLED MUSHROOMS			Cortinarius armillatus	612	331
PINK TO SALMON-SPORED GILLED MUSHROOMS			Sect. G [Leprocybe]		
CLITOCYBE (in part -- most Clit. have white spores)			[No example known in NE]		
Clitocybe nuda (see under Clitocybe above)			CREPIDOTUS		
CLITOPILUS			Crepidotus applanatus	636	494
Clitopilus prunulus	641	242	GALERINA		
ENTOLOMA			Galerina autumnalis	620	228
Entoloma abortivum	641	253,670	GYMNOPIILUS		
Entoloma salmoneum	644	49	Gymnopilus spectabilis	623	214
PHYLLOTOPSIS			HEBELOMA		
Phyllotopsis nidulans (see under Pleurotus above)			Hebeloma crustuliniforme	624	259
PLUTEUS			INOCYBE		
Pluteus cervinus	675	231,232	Inocybe fastigiata	628	318
VOLVARIELLA			PAXILLUS		
Volvariella bombycina	677	109	Paxillus atrotomentosus	670	322
-----			Paxillus involutus	671	287
BROWN SPORED GILLED MUSHROOMS			Phylloporus rhodoxanthus	672	324,326
AGARICUS			PHOLIOTA and its look-alikes		
Sect. A (Agaricus)			Agrocybe praecox (see under Agrocybe above)		
Agaricus bitorquis	503	157	Pholiota aurivella	712	186
Agaricus campestris	505	153,154	Pholiota squarrosoides	717	184,188
Sect. B (Arvenses)			Galerina autumnalis (see under Galerina above)		

Group Mushroom	Text p.	Image #	Group Mushroom	Text p.	Image #
Gymnopilus spectabilis (see under Gymnopilus above)			Bondarzewia berkeleyi	476	477
Rozites caperata (= Pholiota caperata)	635	201	Coltricia cinnamomea	450	445
-----			Daedaleopsis confragosa	454	481
PURPLE-BROWN TO BLACK SPORED GILLED M. NAEMATOLOMA (= HYPHOLOMA)			Fistulina hepatica	455	513
Naematoloma fasciculare	709	61	Ganoderma applanatum	460	518
Naematoloma sublateritium	710	36	Ganoderma lucidum complex	460	514
PSILOCYBE			Grifola frondosa	463	474,475
Psilocybe caerulipes	719	33	Laetiporus sulphureus	468	478,511
STROPHARIA			Lenzites betulina	469	535
Stropharia rugosoannulata	729	203,204	Meripilus giganteus	470	471
COPRINUS			Polyporus squamosus	481	507
Coprinus atramentarius	596	19	Polyporus varius	483	453
Coprinus comatus	597	704	Pycnoporus cinnabarinus	486	512
Coprinus micaceus	600	42	Trametes versicolor	489	482
PANAEOLUS			Trichaptum bifforme	490	538
Panaeolus campanulatus	602	87	-----		
PSATHYRELLA			CHANTERELLES (& look-alikes) & BLACK TRUMPETS		
Psathyrella candolleana	604	25	Cantharellula umbonata (= Cantharellus umbonatus)	741	97
-----			Cantharellus cibarius	387	427
-----			Cantharellus cinnabarinus	388	421
NON-GILLED MUSHROOMS			Cantharellus tubaeformis	392	441
BOLETES			Craterellus fallax	394	443
Boletus bicolor	566	412	Gomphus floccosus (= Cantharellus floccosus)	396	430,431
Boletus edulis	568	405	Hygrophoropsis aurantiaca (=	669	311
Boletus frostii	568	408	Cantharellus aurantiacus)		
Boletus subvelutipes	572	409	Omphalotus olearius (see under Clitocybe above)		
Chalciporus piperatus	571	398	Schizophyllum commune	493	487
Gyrodon (Boletinellus) merulioides	564	452	-----		
Gyroporus castaneus	575	384	CORAL FUNGI and allies		
Leccinum aurantiacum	577	388	Clavariadelphus pistillaris	403	688
Leccinum scabrum	578	390	Clavulina amethystina	402	752
Pulveroboletus ravenelii	579	417	Clavulina cristata	402	743
Strobilomyces floccopus	580	379	Clavulinopsis fusiformis	399	734
Suillus americanus	581	416	Ramaria formosa	408	746
Suillus granulatus	584	376	Sparassis crispa	411	756
Suillus luteus	586	401	-----		
Suillus pictus	587	391	TOOTH FUNGI		
Tylopilus eximius	592	380	Climacodon septentrionale	427	520
Tylopilus felleus	593	382	Hericium coralloides	429	548
Xerocomus badius	565	395	Hericium erinaceus	430	547
Xerocomus chrysenteron	567	413	Hydnellum aurantiacum	431	479
Xerocomus parasiticus	571	370	Hydnum (Dentinum) repandum	428	455
-----			Sarcodon (Hydnum) imbricatum	434	466
POLYPORES			-----		
Albatrellus caeruleoporus	441	457			

Group Mushroom	Text p.	Image #	Group Mushroom	Text p.	Image #
PARCHMENT and CRUST FUNGI			Cordyceps militaris	369	687
Hydnochaete olivaceum	438	577	Daldinia concentrica	374	668
Irpex lacteus	467	584	Hypomyces chrysospermus	371	400
Stereum ostrea	497	536	Hypomyces hyalinus	372	699
Thelephora terrestris	413	437	Hypomyces lactifluorum	373	429
-----			Xylaria polymorpha	376	697
PUFFBALLS and other "gasteromycetes"					
Calvatia cyathiformis	822	653			
Calvatia gigantea	823	647			
Lycoperdon perlatum	825	652,676			
Lycoperdon pyriforme	826	664			
Scleroderma citrinum	839	654			
Astraeus hygrometricus	837	638			
Geastrum saccatum	818	636			
Dictyophora duplicata	834	707			
Mutinus elegans	835	692			
Phallus ravenelii	835	706			
Pseudocolus schellenbergiae	833	695			
Crucibulum laeve	828	633			
Calostoma cinnabarina	841	700			

JELLY FUNGI					
Auricularia auricula	380	617			
Pseudohydnum gelatinosum	383	459			
Tremella mesenterica	385	566			
Tremellodendron pallidum	385	741			
Syzygospora (Christiansenia) mycetophila	418	564			

CUP FUNGI (including morels and their look alikes)					
Aleuria aurantia	349	603			
Peziza badiocconfusa	347	625			
Scutellinia scutellata	353	604			
Bisporella citrina	362	568			
Chlorociboria aeruginascens	361	598			
Wynnea americana	345	615			
Leotia lubrica	364	726			
Trichoglossum hirsutum	357	682			
Spathularia velutipes	359	693			
Morchella esculenta	327	710			
Morchella semilibera	328	711			
Helvella crispa	333	722			
Helvella elastica	334	723			
Gyromitra fastigiata (= G. korfii)	337	718			
Gyromitra infula	339	719,720			

FLASK FUNGI					
Cordyceps capitata	368	728
