

BIOBLITZ Bronx River areas, Bronx NY 10/11 June 2005 (46 species)

Ascomycetes 7	Polypores 12	Gasteromycetes 1
Jelly Fungi 1	Gilled fungi (white spored) 6	Myxomycetes 1
Parchment & Crust Fungi 4	Gilled fungi (dark spored) 14	

ASCOMYCETES

Camarops petersii
Daldinia concentrica
Hypoxyton fragiforme
Mollisia cinerea
Peziza sp.
Ustulina deusta
Xylaria hypoxyton

Schizophyllaceae
Schizophyllum commune

Gilled Mushrooms (Dark spored)

Bolbitaceae
Agrocybe amara
Agrocybe acericola
Agrocybe dura
Bolbitius vitellinus

BASIDIOMYCETES

Jelly Fungi

Exidia recisa

Coprinaceae
Coprinus plicatilis
Coprinus quadrifidus
Coprinus micaceus
Psathyrella candolleana
Psathyrella sp.

Parchment & Crust Fungi

Hydnochaete olivaceum
Stereum complicatum
Stereum ostrea
Xylobolus frustulatus

Cortinariaceae & Crepidotaceae
Crepidotus applanatum
Crepidotus mollis

Polypores

Cerrena unicolor
Fomes fomentarius
Ganoderma applanatum
Laetiporus sulphureus
Phellinus gilvus
Polyporus squamosus
Trametes conchifer
Trametes elegans
Trametes hirsuta
Trametes velutina
Trametes versicolor
Trichaptum bifforme

Entolomataceae & Plutaceae
Pluteus cervinus

Strophariaceae
Psilocybe sp.
Stropharia rugosoannulata

GASTEROMYCETES

Pseudocolus fusiformis

MYXOMYCETES

Lycogala epidendron

Gilled Mushrooms (White spored)

Russulaceae
Russula sp.

Tricholomataceae
Mycena pseudoinclinata
Panus torulosus
Megacollybia platyphylla
Pleurotus ostreatus complex

Note:
very dry
few collectors
few mushrooms.
